ACTION POSES READY TO ANIMATE

MAGIC FIGHTER CONCEPT

Concept sheet for a fire fighter: main design plus attack poses (Descending, Aerial, Charge Flame and Basic Combo).

- Main pose plus four actions: Descending Attack, Aerial Attack, Charge Flame and Basic Combo.
- Fists and flames are drawn as elements separate from the body, so they can be animated in layers.

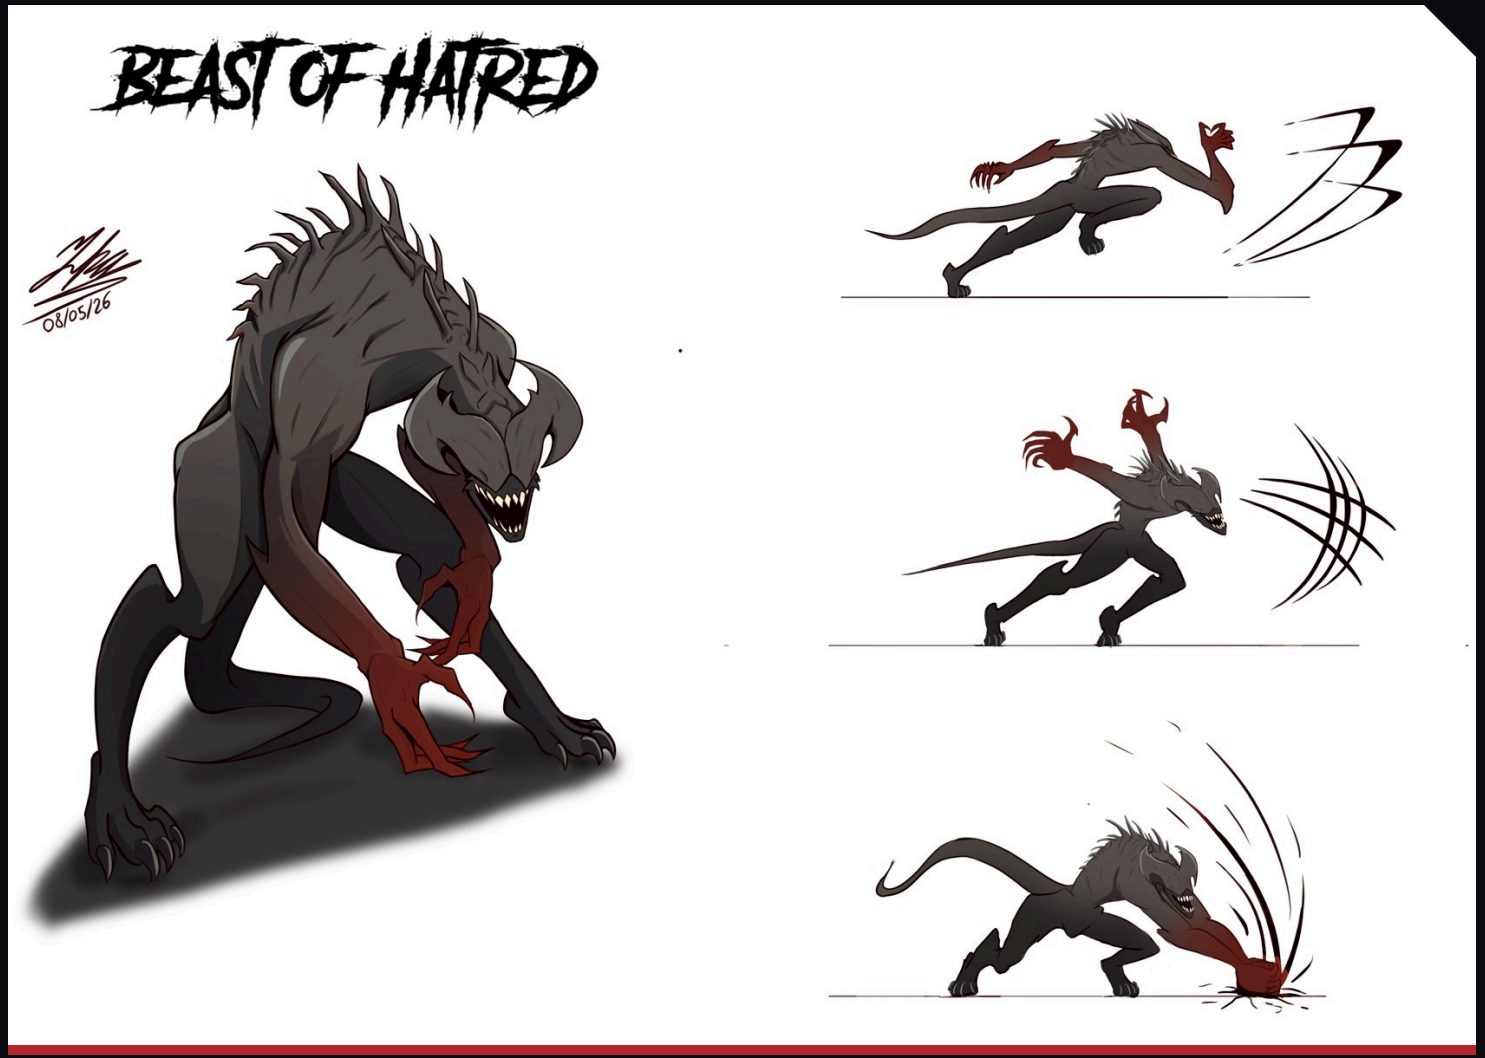

CHARACTER DESIGN · 2026

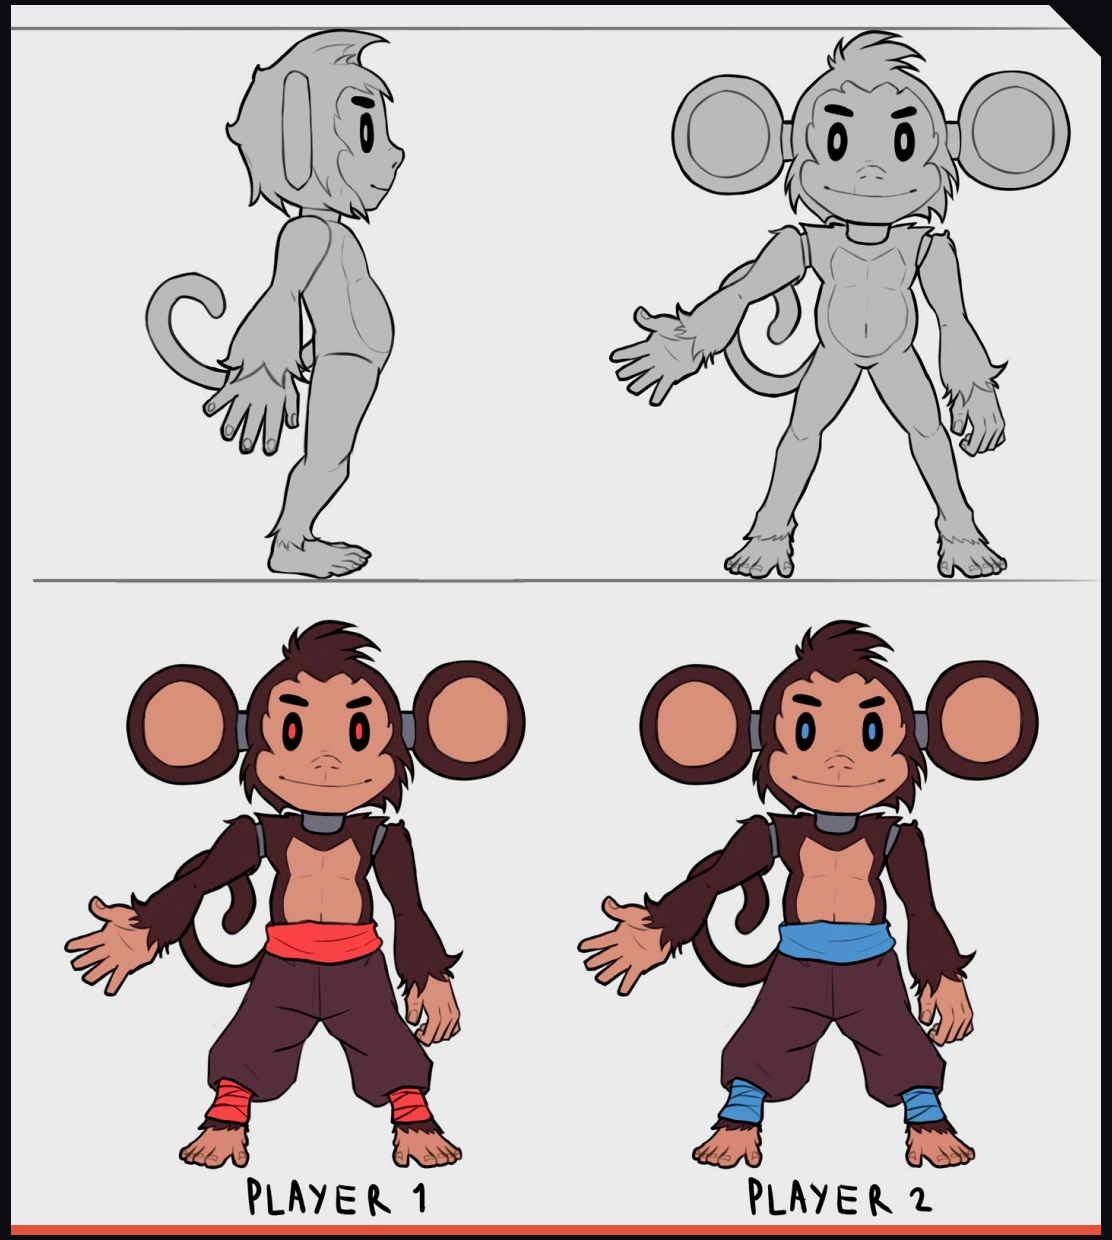

A CREATURE THAT READS CLEARLY IN MOTION

BEAST OF HATRED

Creature design with three attack poses and claw-slash marks. The red is concentrated only in the limbs.

- Resting pose in greys with the red concentrated in claws and forearms.
- Three attack poses with slash marks that show the direction of the hit.
- Silhouette defined by the spiked spine and long tail.

CHARACTER DESIGN

PLAYER VARIANTS WITH MINIMAL CHANGES

CYBER MONITOYS CONCEPT

Fighting monkey as a production sheet: grey line art in profile and front, color version, and Player 1 and Player 2 variants.

- Grey line art in profile and front before color.
- Player 2 changes only eye, sash and wrap colors; the silhouette stays the same.
- Big ears and a metal collar as easy-to-read traits.
